BASIC BLUEPRINT READING

Bring a print to class! Hands-on learning experience!

Who Should Attend?

Anyone who could benefit from basic blueprint reading!

- New field personnel with a need for blueprint basics?
- New personnel in counter sales?
- Someone new to the outside sales arena?
- People at the front desk that have the potential to help field questions with a bit more knowledge?

This is a great place to start. The basics. Send them along for an introduction to blueprint reading.

Instructor: Tom Murphy of Edu-Tech Associates, LLC
Tom has worked in the construction industry since 1975. His formal training is in carpentry, and he has been a Foreman, General Superintendent, Estimator and Project Manager. Tom has been teaching construction education since 1995 and is a Certified Instructor and Master Trainer for the National Center for Construction Education & Research. Tom is a former Department Chairman and Carpentry Instructor at Alfred State SUNY College of Technology. He also serves on a number of advisory boards including BOCES.

Thursday, February 14, 2019
2:00 - 5:00 PM
RHBA Office Building
$39/Member $69/Non-Member

Pre-registration is required.
Please call or email the RHBA office to register.
No cancellations 5 days prior to class.

Join us for blueprint reading 101!

Would you benefit from basic knowledge about blueprint reading and estimating? Here's a great opportunity.

Topics Covered Include:

- Introduction to BASIC blueprint reading
- Learn parts of a blueprint and scales
- Set up to build a basic estimate from blueprints
- Explore how a spec book and blueprint work together

Learn basic blueprint symbols, scales, parts of a blueprint, material break out and quantities. Then learn a little about packaging those quantities on an estimating sheet.

We encourage you to bring a current blue print to class!
